

ŁUKASZ KOT

JUNIOR FRONTEND DEVELOPER

PROFILE

Ambitious, communicative and always eager to improve my own skills. Teamwork in a professional, yet funny atmosphere, is something I value the most! At the beginning of my professional career I've acquired experience working with both back-end and front-end. **Currently I'm improving my skills in web development. Working especially with ReactJS library brings me the most fun.** Due to the simplicity and numerous possibilities that React brings I bond my future as a software developer particularly with this technology. I can assure you that I am no stranger to demanding tasks and challenges. **If you want to learn more about me, then have a look at my portfolio website (link below). Let's work together!**

TECHNOLOGY STACK

JavaScript • HTML 5 • CSS 3
ReactJS • SASS • BEM • RWD
